SAVE THE DATE

The State Media Authority of Rhineland-Palatine (LMK) and the University of Applied Sciences of Kaiserslautern (FH Kaiserslautern) invite you to a

Symposium

DRM+ in VHF Band III

- together with DAB+: The positive potential for Digital Broadcasting -

Thursday, 27th of May, 2010, Novotel Kaiserslautern

Content:

The project partners present their motivation, the concepts and the results obtained from both lab and field measurements with DRM+/DAB+ in VHF band III. Real-time transmission and reception chains with DRM+ and DAB+ are demonstrated.

National and international experts discuss the perspectives for DRM+ in VHF-Band III from different angles: Frequency planning, regulation, network operating, broadcasting, receiver manufacturing, and, last but not least: content (provisioning).

Companies and institutions involved in the work present themselves in an exhibition area.

Further information:

For more information please visit our [project homepage](#)

Online-registration and program:

Attending the symposium is free of charge, but registration is required.

Online-registration form and detailed program information will be available beginning of April 2010 on our [project homepage](#). You'll be informed in due time.

The symposium is sponsored by:

Mugler AG, Rohde&Schwarz, RLP inform,
World Family of Radio Maria & Fondazione Formare.

Program and Organisation:

[Joachim Lehnert](#) (LMK) and [Prof. Dr. Andreas Steil](#) (FH Kaiserslautern)
